Lei Shi

State Key Laboratory of Computer Science, Institute of Software,Chinese Academy of Sciences

4# South 4th Street, Zhongguancun, Beijing, China 100080

Email: shilei1025@gmail.com & Tel: 15811593670

Research Interests

Machine Learning, Data Mining, Recommender System, Information Extraction

Education

Institute of Software, Chinese Academy of Sciences, Beijing, China   Sep 2012 - Present

- Advisor: Prof. Yi-Dong Shen

Wuhan University, Wuhan, China   Sep 2008 - Jun 2012

- B.Eng. in Computer Science

- Thesis: Container Ship Stowage Plan Based on Muti-Strtegy (Honored as the **Outstanding Bachelor Thesis in Hubei Province**)

- GPA: 90.7/100

- Rank 6/278

Publications

1. Dilin Wang, **Lei Shi**, JianWen Cao. Fast Algorithm for Approximate k-Nearest Neighbor Graph Construction. The 13th IEEE International Conference on Data Mining(**ICDM**), 2013. Accepted. (Workshop Paper)

2. Wenbin Hu, Zhengbing Hu, **Lei Shi**, Peng Luo, Wei Song. Combinatorial Optimization and Strategy for Ship Stowage and Loading Schedule of Container Terminal. Journal of Computers, Vol 7, No 8(2012), 2078-2092

3. **Lei Shi**, Wenbin Hu, Zhengbing Hu, Bin Lu, Peng Luo. Ship Stowage Scheduling of Container Terminal by Combinatorial Optimization Algorithm and Strategy. The 3rd International Symposium of Information Engineering and Electronic Commerce, 2011.

Research&Development Experience

Institute of Software, Chinese Academy of Sciences   Sep 2012 - Present
Research Assistant   *Beijing, China*

· I mainly work on the topic of fast k-NN graph construction. k-NN graphs are widely used in several areas, such as data mining, machine learning and recommender systems. Our goal of this work is to generate k-NN graph with a high precision and reduced time cost.

Microsoft Research Asia   Apr 2013 - Present
Research Intern   *Beijing, China*

· I am with the knowledge mining group, supervised by Dr. Shuming Shi. During the internship, I mainly focus on category labels understanding.

STCA, Microsoft   Nov 2011 - Apr 2012
Software Development Intern   *Beijing, China*

· I worked with the multi media team, search technology center Asia (STCA), mentored by Dr. Xin-jing Wang and Dr. Litian Tao. During the internship, I focus on improving the search relevance of Bing in image verticle.

Institute of Computer Science, Wuhan University June 2010 - June 2012
Research Assistant *Wuhan,China*

· I worked with Prof. Wenbin Hu on the topics about self-adaptive and intelligent strategy for yard space plan under uncertainty. I mainly focused on the stowage plan which can be formalized as a combinatorial problem. Container classification algorithm and container stacking strategy are proposed, and group-based encoding genetic algorithm is used to solve this problem.

Awards and Scholarships

- Outstanding graduates of Wuhan University, 2012

- National Scholarship, 2010

- Third prize of the 4th national information security competition, 2011

- Third prize of the mathematical modeling contest in central China, 2011

- First prize scholarship of Wuhan University, 2010-2011

- Merit Student of Wuhan University, 2009-2011

- Second prize scholarship of Wuhan University, 2009

Skills

C, C++, C#, Java, Python, OpenGL, MySQL
